PROFILE

I am a dedicated Frontend Developer with having passion for UI/UX design. Currently, I am polishing my skills in UI/UX design while also exploring opportunities in Blockchain technology. Beyond my technical pursuits, I enjoy expressing my creativity by immersing myself in nature during my free time.

EDUCATION

Pandit Deendayal Energy University (Expected May, 2026)

Bachelor of Technology in Computer Engineering (CGPA: 8.27 / 10.00)

Bhagwan Mahavir International School (2020-2022)

12th CBSE Board – 56%

METAS Adventist School (2008 - 2020)

10th CISCE Board – 89.6%

PROJECTS

Spotify Page Clone | HTML, CSS, Flask, Python, MySQL, GitHub Code

- Spotify Page which I replicated using different languages of frontend.
- Made an easy simple interface where a user can Sign up/ Login into the page.
- Also, user can create their own playlists and add it to library.
- Using MySQL database, all data are stored in it.

Simon Says Game | HTML, CSS, JavaScript, GitHub Code

- A mind game known as Simon Says where a person says some words or perform action and the next person have to repeat the same word or action performed by the previous person and then add a new word or action to it and this goes on.
- I tried replicating this game using 4 different colors on the web page.

TODO App | HTML, CSS, JavaScript, GitHub Code

- I created a site for TODO list where a person can insert the task and once completed can delete the task as well.

CERTIFICATIONS

IIT Bombay Hackathon (December, 2023)

- Ethical Hacking
